

PRESERVE

**Ethical and Privacy-Preserving Big Data Platform
Supporting Criminal Investigations**

**Design, implementation and validation of a
privacy-preserving law enforcement and
decision-support toolbox compliant with EU
ethical standards for AI.**

4 Real-World Use Cases

**Identifying and
Mitigating Hate
Speech**

**Illegal Drug
Trafficking**

**Terrorists
Recruitment**

**CSA
Prevention and
Investigation**

The toolbox will rely on AI models, such as
**Natural Language Processing (NLP),
Computer Vision (CV) and User and Entity
Behaviour Analytics (UEBA) techniques.**

PARTNERS

PRESERVE has received funding from the European Union's Horizon Europe Research and Innovation programme under grant agreement N°101168309.
